Positional Stats

This table presents weekly averages from the season so far. Due to technical limitations, it currently does not include weeks in which a player did not play (due to injury or otherwise), but it does include games that players did not finish. This seems to be a good way to take nagging injuries into account while mostly ignoring those that take a player out for a limited number of weeks.

Table 1: RB Comparison

	Rush Yds	Rush Att	Rush TDs	Rec Yds	Rec TDs	FP
DeMarco Murray	125.89	25.00	0.78	27.78	0	22.14

Weekly Stats

Important weekly stats are presented here, as well as an estimation of fantasy points, based on our league rules. If you would think that an important category has been omitted, please let me know, categories are relatively easy to change.

¹The resources being used to retrieve official stats are not informed by post-game corrections, therefore the generated fantasy points are generally close but not necessarily exact.
